Letter of Recommendation

To anyone considering adopting from Maggie and Max's litter at Midnight Sky Kennel:

This is our experience so far...

We couldn't be more happy with the newest addition to our family - Kitty Coyote Lilou Caudill. We call her Lilou.

Her intelligence and enthusiasm to learn at such a young age is absolutely unbelievable. Whenever we go into training mode, her focus and determination to understand is nothing shy of extraordinary. Within a matter of days she has already learned the basic commands: come, sit, stay and lie down, as well as fun tricks like high five and roll over. We have only had her for a few weeks and she is pretty much fully house trained.

Besides being highly intelligent, she is playful, yet gentle and so energetic! I have no doubt she will grow in to an incredibly athletic, loving and loyal companion.

I would certainly recommend adopting from Midnight Sky Kennel, their love for this breed is clear and these puppies are of the highest quality.

Thank you Jill, Brent, Max & Maggie!

Sincerely,

Jacqueline Lapid & Jason Caudill
